Angela Best
Lola Szobota

Exhibits Co-Chairpersons:

Tom Smith
Gavin Quinn

Secretary:

Kathy Ernst

Registration Chairpersons:

Bunny Jaskot
Lois Kraus

Treasurer:

John Chapman
12 Simpson Road
Somerset NJ 08873

The New Jersey Science Convention (www.njscienceconvention.org) will be hosting its 46th Annual Convention on October 18, 19, 2022 at the Princeton Marriott Forrester in Princeton, NJ. For the past 45 years this convention has provided professional development to thousands of NJ teachers. We are confident that NJSC 2022 will prove to again be a successful event. As a state convention, the New Jersey Science Convention is the only local science-based professional development opportunity for NJ K-12 classroom teachers.

In alignment with our theme for this year's convention **NJSC 2022: Helping All Students Find Their Voice**, we have identified several important strands as a guide for prospective presenters:

- Creating a Culturally Responsive Science Classroom
- Promoting Equity and Inclusion in the Science Classrooms
- Engaging Students in Climate Change Through Research, Discourse and Problem Solving
- Engaging Students in the Explanation and Exploration of Local Problems
- Interactive Three Dimensional/NGSS Lessons that Address K-5 Science, Earth and Space Science, Biology, Chemistry, and Physics

We also welcome sessions that address the integration of technology and the latest information on the NJ Science Learning Standards and classroom resources.

In addition to presentations by experienced classroom teachers, NJSC 2022 will also host presentations by the NJDOE and college professors along with national speakers and presenters. The unique venue provides a level of interaction that allows teachers to connect with colleagues from schools all over New Jersey and maintain on going collaboration. In alignment with NJSLS-S/NGSS, the NJ Science Convention provides K-12 science teachers with professional development that supports the type of science teaching needed to prepare students for a competitive global society.

The members of the NJ Science Convention Steering Committee encourage districts to support their teachers by providing the opportunity for them to participate in NJSC 2022. We hope to see you in October!

If you have any questions, please contact either of the Executive Co-Chairs.

Sincerely,

Angela Best abest@njscienceconvention.org

Lola Szobota lszobota@njscienceconvention.org
