

Bringing 21st Century Science Skills to the Classroom

2021: Science Unlocks the Future

Tuesday 10/19/21 – Wednesday 10/20/21

HEALTH AND SAFETY MESSAGE NEW JERSEY SCIENCE CONVENTION 2021

The New Jersey Science Convention 2021 is offered in-person this year. We strongly encourage all attendees to be vaccinated against COVID-19 in order to ensure their safety and the safety of others.

We are working with the Marriott to ensure your safety during the Convention. The following safety protocols will be required for all attendees:

1. Masks must be worn throughout the public spaces in the conference center.
2. Social distancing will be practiced during sessions and when visiting the vendor areas.
3. While in the session rooms, please use the table space safely as you collaborate.

The NJ Science Convention will only be canceled if Governor Murphy shuts down the state or halts large meetings or if the Marriott is forced to cancel our event for any reason. We will only be able to provide refunds under those circumstances.

Thank you for supporting the NJSC 2021

See you in October!
